NARROW ESCAPE

From a Disaster in London by Fire.

LONDON, April 17 .- The British meropolis narrowly escaped calamity today, which might have rivalled the horrors witnessed at the destruction by fire recently of the Windsor hotel in New York City. Hyde Park court Al-New York City. Hyde Park court Albert Gate, one of the most fashlonable blocks of residential flats, overlooking the famous Rotten Row, caught fire at half past nine this morning. The buildings which is eleven stories high, was built by the notorious Jabez Spencer Balfour, the former member of parliament, who was responsible for the collapse of the Liberator building association and other companies, by which thousands of people were ruined, and who is now undergoing a sentence of fourteen years' penal servitude as a result of his conviction on charges of fraud. It practically adjoins the house occupied by Sir Herbert Naylor-Leyland, bart, Liberat member of parliament for the Southport division of Lancashire, whose wife was Miss Jennie Chamberlain, of Cleveland, Ohio.

The fire broke out in the lower part of the building and spread up the elevator shaft with great rapidity. The flames involved the upper stories before their occupants were aware of the danger. When the alarm was raised the affrighted servants dropped from the top window to verandas on the ninth story. The defective arrangements of the London fire brigade were again demonstrated, and even when the fire escapes reached the scene they were too short to reach the people in the upper stories, who only escaped with the greatest difficulty, while the residents of the building, carrying what they could of their belongings.

The flames were not under control until 1 o'clock, when the upper part of the bert Gate, one of the most fashionable

their belongings.

The flames were not under control until 1 o'clock, when the upper part of the structure was gutted.

It is considered lucky that the fire occurred in daylight, as otherwise it would have resulted in loss of life.

All the floors were supposed to be fireproof.

EXPERT EVIDENCE

On Alger-Sam Small Says Volunteer Have no Kick Coming.

Sam W. Small, who is soldiering in Cuba, writes as follows to the Atlanta Constitution: Our volunteer soldiers now in Cuba are jubilant over the news of their early return to the United States to be mustered out. At the

same time they are most of them glad they came, and will carry through their lives valuable memories of their Cuban soldiering.

Whatever may be the concert and character of the criticisms launched against General Alger as secretary of war in the United States I think it safe to say that but few of these volunteers from Cuba will join the chorus. Next to the name of William McKinley, the President so universally estermed by them, stands in their praise the name of the secretary of war. It may be said that they know nothing of the facts in the case made against him, but that is a farcical thing to say. These men are as a rule, well educated, sensible, newspaper reading young Americans. Their eagerness to devour the contents of magazine articles and newspapers coming into camp from any part of the Union is one of the omnipresent of the Union is one of the omnipresent manifestations of their camp life. They understand the facts developed by the press, by Congress and by the various investigating commissions about as well as the average congressman or journalist of the states, besides having had from eight to ten months' actual experience under the administration of the war oillee. They have slept in the tents, handled the guns, fed on the rations, been dosed with the medicines and have a right to their opinions on all the points urged against the wisdom, humanity and sufficiency of the provisions made for their welfare.

It is pleasant, therefore, after talking with numberless volunteers in these regiments, hailing from north and south, east and west, to hear them, when asked: "What do you think of Alger?" reply with eagerness and enthusiasm:

"Alger? Why he's all right. I've got no kick coming on his account."

And that plain, familiar, Americanbuilt response is a verdict from a juryman whose sincerity, opportunitie; and experiences give him a right to be heard and believed, and that is why I write about the matter.

There are absolutely no personal or partisan reasons why I should take up space on behalf of Gene

has been faithful in his care for them, that he has sought to use the machincry of his department to minimize and not to aggravate their expected experiences, and that no lack of comforts in camp, on transport or in garrison is
chargeable to his indifference, neglect
or lack of administrative energy.
Scarcely any of us were ever in a war
before this one, but if the stories told
of the civil war by veterans of both
sides of that struggle are not fearfully
exaggerated, the soldlers of to-day have
had a god-father in Alger.
The American people are honest at
heart and chivalrous in conduct. When
theart and chivalrous in conduct when
theart and chivalrous in conduct when
they know the truth, the whole truth,
and nothing but the truth from these
returning volunteers, they will be
ashamed to have taken stock in the virulent assaults of the bomb-proof editors and stay-at-home brigadiers seeking to make Secretary Alger the scapegoat of their venom against the President, and his conduct of a war which
they could have scarcely wished to see
successful. they could have scarcely wished to se

A Queer "DoHy."

New York Sun: "I wish," said a young lawyer, who has an office in New York and a home in Brooklyn, "that I had kept account of the queer incidents I have noticed in the course of my walks through the east side on my way to the ferry. One of these incidents—it happened one rainy day last week—made a particularly strong impression on me. I was hurrying along Cherry street, holding my umbrella between me and a fine, driving rain, when I noticed a little girl ahead of me. She was a very little girl, not more than five or six years old, poorly dressed and quite unprotected from the rain, so far as an umbrella went.

"I hurried along, vaguely thinking about how wet and cold and miscrable the child must be and reterrating in my mind a determination to which I often come, not to go home by that ferry, but New York Sun: "I wish," said a

mind a determination to which I often come, not to go home by that ferry, but to take the bridge for the express pur-pose of escaping the sight of the chil-dren down there. When I came quite up to the child she turned suddenly and

up to the child she turned suddenly and faced me. She looked up with the most engaging smile and suid, quite simple but pleasantly;

"'My dolly's a'neep.'

"I looked down and discovered that she was nursing in her little arms a whiskey bottle, nuart size and unadorned save for a white label discolored by the rain. What did I do? Oh, I acquiesced in the dolly theory and expressed a few of the adult idiocies usual under those circumstances. Then I took a good look at the shining eyes in the child's rain-wet face and went on. But in split of any care in impressing on my mind the fact that her eyes were happy. I haven't been able to get rid of the recollection of that dolly."

IS USED IN THE FORM OF A LATHER, REQUIRES LITTLE WATER. MAKES NO MUSS.

FINANCE AND TRADE.

The Features of the Money and Stock

Markets.

NEW YORK, April 17.—Money on call firmer at 4½@6 per cent; last loan 5 per cent. Prime mercantile paper 31/2041/4 per cent. Sterling exchange strong, with actual business in bankers' bills at \$4.86%:@4.86%: for demand and at \$4 84\\.204 84\% for sixty days; posted rates \$4 85\\.204 85\\.204 85\\.204 87\\.201 and \$4 87\\.204 87\\.201 .

34 \$4½@4 \$4½ for sixty daye; posted rates \$4 \$5@4 \$5½ and \$4 \$7@4 \$7½. Commercial bills \$4 \$3@4 \$3¾. Bar silver 55½e. Mexican dollars 47½c. NEW YORK, April 17.—A rise in call money and a recurrence of discrimination in loans against the industrials caused prices to recede below Saturday's close in the afternoor trading. The market as usual on Monday after a strong Saturday closing, opened active and strong on an accumulation of outside orders. Except for a spurt of strength in the grangers with Burlington leading; although they subsequently lost about all of their earlier gains, the dealings were largely confined to the industrials and specialties, Prominent in the early strength were Tobacco, Iron and Steel shares, Anaconda Mining, Cotton Oll and General Electric. The latter was influenced by gossip relative to dividend prospects. Manhattan, Sugar and Brooklyn Transit were consistently weak, although Brooklyn Transit recovered somewhat from the lowest. Many of the special ties which had advanced most readily early were equally conspicuous in the afternoon decline, especially Continental Tobacco, Federal Steel, Colorado Fuel and Iron and American Steel and Wire. An advance in wheat gave encouragement to the bears, who construed it as confirmatory of agop damage gossip. The strength in the call money market, which ranged from 4½ to 6, was in a measure due to the financing of another crop to industrial combinations, including payments incidental to the organization of the American hoop company. There was considerable selling for western account in the afternoon tradition. combinations, including payments incidental to the organization of the American hoop company. There was considerable selling for western account in the afternoon trading, which gave encouragement to a large interest which operated apparently on the short side. London was a purchaser of a number of dividend paying internationals and a seller of speculative low grade shares. Expectation that the decision of the Rapid Transit commission would be rendered this afternoon was a source of strength to Metropolitan and weakness to Manhattan on the possibility that it might favor the former. The general market left off rather weak.

Business in rallway mortgages was well distributed to-day and a generally higher range of prices established. Total sales, \$3,055,000.

United States new 4s registered, the old 4s registered and the 3s registered advanced ¼, and the new 4s coupon ¼ per cent in the bid price.

The total sales of stocks to-day amounted to 790,943 shares.

Breadstuffs and Provisions.

CHICAGO-On a renewal of crop

damage reports, May wheat closed to

damage reports, May wheat closed to-day with a gain of 1c. Corn advanced ½c and oats ¼6%c. Pork declined 12½c, lard 5c and ribs 2½c.

Fears of blight on account of the prevalence of warm, dry weather started wheat firm. Private crop reports were generally discouraging, but there were numerous dispatches of the opposite sort, which raised the hopes of the bears and caused heavy selling on all the hard spots. May opened ¾6½c higher at 73c to 73¼c73¼c, touched 73½c, then declined irregularly to 72½c. On a report from a prominent crop higher at 73% to 73%(0.73%), touched 73%, then declined irregularly to 72%. On a report from a prominent crop statistician confirmatory of previous damage reports in the principal winter wheat states, the market recovered to 73%. Renewed liquidation of May holdings quickly forced a decline to 72%. Following that came gloomy reports from Michigan and Indiana and a recovery to 73% resulted. Chicago received 60 cars, five of which were graded contract, Minneapolis and Duluth got 306 against 313 a year ago. Aggregate receipts at western primary markets were 256,000, compared with 407,000 last year. Atlantic port clearances in wheat and flour equalled 230,000 hushels. The visible supply increased 71,000 bushels. In the last half hour the market tended steadily upward with shorts covering freely. May rose to 73%/673% cand closed at 73%c; July closed at 74%c, the premium over May being increased to %c.

closed at 73½c; July closed at 74½c, the premium over May being increased to 7½c.

Corn was strong on a decrease of 2,150,000 bushels in the visible, light receipts and a good shipping demand. Several large shorts were persistent buyers, but offerings were moderate, consequently the price advanced. Receipts 185 cars; May started 4½c higher at 34½4655½c, and closed with sellers at 34½4655½c.

Oats were fairly strong in sympathy with the leading cereals. A decrease of 255,600 bushels was shown in the visible supply. The trade consisted chiefly of buying of May and selling of July by commission houses. Receipts 135 cars; May opened ½c higher at 25½c, touched 25½46726½c, rose to 27c and closed at 26¼467c.

Slow cash demand and selling by packers weakened provisions. Shipments were fair, 2,578,000 pounds meats

and 1,555,000 pounds lard; May pork started 2½@5c lower at \$9 07½@9 10; de-clined to \$8 57½ and firmed up to \$9 60 at the close. Lard and ribs ruled with-in narrow limits. Estimated receipts for Tuesday: Wheat 97 cars; corn 290 cars; oats 197 cars; hogs 19,000 head. The leading futures ranged as follows:
